WILL PROVIDE TOWN WELL FOR FARMERS

At last a long felt want by the farmers is to be supplied by the town. A well for the purpose of watering live stock is to be drilled and a pump put in near the stock yards and athletic grounds on the east of the track. Since the trouble last summer when the farmers were put to a lot of inconvenience because of the action taken in closing up the pound and the decision of the owner of the well which adjoins to lock up his pump, the trouble has been incessantly before Mayor Chambers and the Council and to overcome the obstacle it was decided at Monday night's meeting that the above plan should be followed and a permanent water supply provided for the farmers.

POUND BYLAW STRICTLY ENFORCED

At the town meeting Monday night, the bylaw was strictly enforced. Impoundment of stock running at large is strictly enforced.

NEW SETTLERS FOR DIDSBURY DISTRICT

The Didsbury district is receiving some of the assisted settlers that are being brought over from England. Mr. L. C. Elliot, local representative of the Soldier Settlement Board has been busy getting ready to receive two families this week, one from England and one from Scotland.

Mr. Roland Webster and family from England and Mr. Duncan McMurray and family, from Scotland, it is expected will arrive on Wednesday at Didsbury and will be taken out to the McConnel farms, near Westcott. Both Mr. Webster and Mr. McMurray are experienced farmers and after a little experience here should make good.

FARMERS WORKING ON LAND

A great change has taken place throughout the district in the last few days, the splendid spring weather has been warm and the high ground is getting in fine shape for working, in fact several farmers started in at the beginning of this week on their seeding operations. N. Swalm and Walter Scheidt were two of the first to start in the east and it is reported several more are on the land.

The low lying land, the creeks and streams are overflowing their banks and it is reported that the ice has taken out the centre pier under the bridge over the Roschid creek east of town. The roads are beginning to get passable but they are still very bad in spots.

DID NOT FORM BRANCH OF G. W. V. A.

The meeting of the returned men to reorganize a branch of the G. W. V. A. in Didsbury last Saturday afternoon did not result in any definite action in the matter, it was felt that there were not enough men present to go ahead no doubt because it was almost impossible for a lot of them to come to town on account of bad roads. It was decided however to hold a meeting on April 17th, at 1 o'clock, in the Opera House, at which a larger attendance is expected.

Mr. A. Wakelyn, Secretary of the Provincial Command, Calgary, and Mr. C. Scheidt, Secretary of the Carstairs branch, were both present and were ready to assist the local boys but as stated above

TOWN OF DIDSBURY Assessment Roll, 1935.

NOTICE is hereby given that the assessment roll of the Town of Didsbury for the year 1935 has been prepared and is now open for inspection at the office of the Secretary-Treasurer of the Town from ten o'clock in the forenoon to four o'clock in the afternoon on every day which is not a public holiday except Saturday, and on that day from 10 o'clock in the morning to 12 noon, and that any ratepayer who desires to object to the assessment of himself or of any other person may, within thirty days after the date of this notice, lodge an objection with the assessor.

At the town meeting Monday night, the bylaw was strictly enforced. Impoundment of stock running at large is strictly enforced.

MOVED INTO NEW QUARTERS

Another change has been made in the business premises in town. As was announced in the Pioneer some time ago Messrs. C. Adshad and G. Lunt had secured the two-story building, which was the first Opera House in town, for their big garage building and now the alterations inside have been practically completed and the plant has been moved into the new quarters.

The ground floor has been completely changed and the arrangements now give a clear floor space under the whole building for car storage. It has a solid cement floor and easy access both front and rear of the building. A large four ton elevator has been put in which will hoist the cars for repairs to the second floor where a complete modern garage workshop with the necessary machinery, tools and parts to make repairs has been installed. The large new Fairbanks engine and dynamo not only supplies the required power but also gives electricity for one hundred large lamps, this also is placed in the second story.

The second floor has been strengthened by large trusses which will carry over 100 ton.

Messrs. Adshad and Lunt are to be congratulated on putting in such a plant as this in Didsbury and no doubt they will find that their confidence with the good service they give has not been misplaced in the district. The new garage is one block north of their former location.

GOOD PICTURE COMING

Lovers of good pictures will be provided with a treat at the Opera House on Wednesday night next, April 15th, when the great William Fox production of the "Shepherd King" will be shown.

This great picture shows a romance of the languorous Nile when love and the world were young. A romance laid in the shadow of the Sphinx, a drama of a woman's wiles in a battle for a kingdom. The splendors of old Palestine and Jerusalem brought before your eyes. Don't miss it.

RUGBY ITEMS

The regular meeting of the Rugby Women's Institute was held at the home of Mrs. Charles Brown on Thursday, April 2nd. Owing to the bad roads many of the members were unable to be present.

Mrs. James Hughes read a paper on "Home Economics" including part of Mrs. Baubier's conversion report. Provincial President of Women's Institutes in Alberta, and it was of much interest to all. This was followed by a Baking Powder Biscuit contest. Mrs. Hughes, Sr. took first prize

and Mrs. Ed. Parker second. After the close of the meeting a dainty lunch was served.

We were pleased to have Mrs. Ab. Cooper as a visitor with us and she acted as judge for the Biscuit Contest.

Be sure to see "Freezing the Mother-in-law" at Rugby school on Easter Monday night, April 13th. A splendid program is being prepared so come and have a good time.

For Sale or Rent

In the Town of Didsbury, good nine-roomed house, Barn room for 12 head stock, about 7 acres land, fenced and cross fenced, all necessary out buildings, chicken houses, hog pens, etc. Will sell singly or as going concern or rent to responsible tenant.

Mrs. J.C. Stevens,
Phone 67,
Didsbury

"Made in Canada under Government supervision."

A Real National Policy

The welcome announcement comes from Ottawa that at long last a real effort is to be made by the Federal Government and the Canadian National Railway in an endeavor to overcome the geographical obstacles which separate Western Canada from the central Provinces, and the central provinces from the Maritimes, and in so doing assist to make Canada independent of the United States in so far as one article at least is concerned, namely, coal.

Ever since Confederation became an accomplished fact it has been the aim of all Governments to develop the Dominion along east and west lines and thus make it, as far as possible, a self-contained, self-supporting national unit. Hundreds of millions of dollars have been expended in the effort in the construction of transcontinental railways, building of canals, development of harbors on the Atlantic and Pacific coasts, and in the maintenance of a so-called national fiscal policy.

Nevertheless, rich as the Dominion unquestionably is in natural resources of all kinds, and, in particular, with billions of tons of coal, the central Provinces of Canada have remained dependent on the United States and gone on importing fuel supplies to the extent of approximately one hundred millions of dollars annually, with the result that the importation of coal has constituted the chief item in our adverse balance of trade with the United States.

The difficulty has been, of course, that Canada's coal deposits are to be found in the extreme eastern and the extreme western Provinces while the bulk of Canada's consuming population and manufacturing industries are to be found in the central Provinces, and the cost of transportation of coal has been too great to enable it to be laid down in Ontario and Quebec in competition with United States coal.

Thus Canadian dollars have paid the wages of thousands of miners in the United States, have provided tonnage and revenues to United States railways, and paid dividends to United States mine owners, the while Canadian miners and railways have lacked employment and our natural resources, which should have been adding to the wealth of Canada, have remained undeveloped, and the people and industries of the central Provinces have lived in the precarious position of possibly having their fuel supplies shut off at any time that labor conditions forced a fuel shortage across the line.

In an effort to correct this situation the Government has announced a two-fold plan. First, arrangements have been made with the Canadian National Railways to transport 100,000 tons of Alberta coal during the spring and early summer months to Ontario at the low rate of \$7.00 per ton, or only a little more than one-half the present rate. This movement will take place at the season when railway traffic is at low ebb. The experiment in haulage of these solid trains of coal will be closely watched, and from the experience gained it is hoped that, while no great profit is expected to result to the Canadian National Railways directly, there will not be any great operating loss, and that employment will be provided during an otherwise slack period.

To meet the Maritime problem the Government proposes to pay a bonus or royalty to concerns which will develop plants for the turning of Nova Scotia coal into coke to be sold in the central Provinces in competition with United States anthracite. This Nova Scotia coal can be brought by water transportation to Montreal—the cheapest form of transportation—and, in addition to coke, several other by-products of commercial value can be obtained.

The success of this two-fold experiment in providing Canadian coal for Ontario and Quebec, and thereby keeping Canadian money at home, providing employment in the extreme east and west, and keeping our own transportation companies busy, rests very largely, if indeed not wholly, with the people and manufacturers of the two central Provinces. They are strong advocates of national policies in the matter of tariffs, exports duties on raw materials, etc. It now remains to be seen whether they will prove equally strong supporters of a national coal policy, or whether they will continue doing as they have done in the past, follow the line of least resistance, the easiest way, and go on buying United States coal which is, comparatively speaking, at their doors, to which they have so long been accustomed to using, and for the use of which their plants have been designed.

For the sake of Canada it is to be hoped the central Provinces will take a big national view of this matter and join forces with the Government, the National Railways and the coal dealers in making this experiment a success. To be successful it must be persisted in, but if persisted in, Canada can undoubtedly become independent so far as its fuel supply is concerned.

Sirens For Submarines

Electric sirens for submarines have been invented by a Swedish engineer to prevent collisions of the boats and to warn other vessels to clear out of the way when the subs are about to return to the surface of the water.

The hide of a cow produces about thirty-five pounds of leather; that of a horse about eighteen pounds.

Today China probably has the largest number of soldiers of any nation.

Canada At Wembley

C.P.R. Pavilion at British Empire Exhibition to be Renovated

Work is already in progress on the complete renovation of the Canadian Pacific Railway Pavilion at the British Empire Exhibition. Exhibits will be re-arranged and many new features added, and the million or so people who saw this exhibit last year will again have an opportunity of seeing new phases of Canada's agricultural, industrial and social life. During the 1924 exhibition over a million pieces of literature were issued and it is hoped that this year—providing the weather is better than last year—that the attendance at the Canadian Pacific Pavilion will be at least double the number that attended in 1924.

Wreaths On Overseas Graves

Canadians Who Wish to Have Graves of Soldiers Who Fell in Great War Cared For Can Do So Through St. Barnabas Hostels

"And yours are there and so are mine, Rank upon rank and line on line." At this time of the year the relatives of fallen heroes of the war are longing for an opportunity to visit the graves in France, particularly to see that they are appropriately cared for at Easter. Unable to do this, it is reassuring to know that there is an agency through which they can have wreaths put on the graves and which will thoroughly and reverently perform this act of faith.

St. Barnabas Hostels, 7 Hobart St., W.I., is such an instrument with them, and qualified to care for a grave of a fallen hero.

On each occasion the relatives with a small photograph to show that the request has been carried out.

People can also become annual subscribers to the hostels, in which case they are entered in the register and wreaths will be placed on specified graves every Easter without further notice. A report of the condition of the grave is made and sent to each subscriber each year.

Coming highly recommended by the Imperial war graves commission, St. Barnabas is one of the institutions engaged in this work that can be relied upon to the utmost. One of the reasons that long notice is required is that this work and the photographic work very often entail long journeys by car over bad roads.

The same institution has organized a number of pilgrimages of old country people to Flanders Fields. A great deal has been written of these impressive ceremonies attended by large gatherings of mourners. But these pilgrimages are out of reach of many Canadians, in which case the service that can be performed for them is the work of placing flowers on the graves and providing the relatives with the knowledge that it is done.

Would Ban U.S. Fishermen
A resolution was passed at a meeting in Prince Rupert, B.C., of the Retail Merchants' Association and the Fish Boat Owners' Association, asking the Dominion Government to close all British Columbia ports to United States fishing vessels whose owners or captains do not maintain a residence in British Columbia, or do not buy their supplies at these ports when selling their fish therein.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoacetic-acidester of Salicylicacid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their patent trade mark, the "Bayer Cross."

GOVERNMENT TO PROCEED WITH NEW GRAIN ACT

Ottawa.—Many representations coming to the government from the west have suggested the decision to go on with the Grain Act after all.

The government, from the start, favored that course, but a group of members, mainly from Saskatchewan, were persistently asking that it should be deferred until another year, having regard to the importance of the measure. No sooner was it announced that the act would be laid over than the same members demanded that it be proceeded with. However, it is not their fluctuating counsel that has counted so much as representations from many agricultural bodies, as well as the grain trade, urging that the present law, now obsolete, should be replaced by one up to date, and, particularly, that the reforms suggested in the Turgeon report should be embodied in the act. This is being done on all the essential lines, including the grading, weighing and mixing of grain, and the operation of private elevators.

The bill will be brought down as soon as the budget is over, and referred to the agricultural committee, with the idea that it be put through before the session ends. If, however, the committee, after fully considering it and giving public hearings, should recommend delay, its report would carry great weight.

Says World's Wheat Supply Not Excessive

Will Be Needed Before Next Harvest Opinion of Marketing Expert

Winnipeg.—The Manitoba Free Press publishes the following from a staff correspondent in New York:

The whole world price level has been shocked by successive and apparently unwarranted declines in the wheat market until, now, buying-confidence is lacking. But a long range view of conditions now indicates acute adjustment of supplies, stated Julius H. Barnes, internationally known marketing expert, discussing world wheat conditions. After discussing the situation in the various wheat growing countries, Mr. Barnes forecast increased reliance on North America for weekly supplies, and expressed himself as a firm believer in the relatively small supply of wheat in the world and the fact that it will be all needed before another crop can be harvested.

New Instruments To Forecast Earthquakes

Will Be Installed In Quebec By Federal Government

Ottawa.—Announcement that the Federal Government intends to install new scientific instruments at St. Anne de la Paroisse, Que., for the determining in advance of earthquakes are likely to occur in the Saguenay River district, was made by E. A. Hodgson, seismologist of the Dominion Observatory, in addressing members of the Royal Astronomers of Canada.

Freight Advance Is Delayed

Increased Rate On Canned Goods Has Been Postponed

Washington.—Freight rates advanced on all canned goods, including condensed and evaporated milk, which railroads had proposed putting into effect April 1 between producing points in Minnesota, Michigan, Illinois and Wisconsin and Canadian and eastern consuming points, were held up by the Interstate commerce commission until July 30. An investigation will be held meanwhile.

Air Hero In Plane Wreck

Nice, France.—Captain Pelletier D'Oisy, hero of last year's Paris-to-Tokyo flight, and two passengers, were rescued when D'Oisy's plane fell into the sea. The plane was wrecked beyond repair.

Returns to Holland

Beffa.—Princess Hermine, wife of the former kaiser, has returned to Doorn, having recovered completely from a recent operation.

W. N. U. 1921

Ask Advisory Council On Unemployment

Ottawa.—A resolution, petitioning the Federal Government to form an advisory council on unemployment to hold conferences on industrial research before the fall unemployment, was passed at the closing meeting of the two days' session of the national council of women executive here, this advisory council to consist of university economists and labor experts from the various provincial governments and the national council of women.

May Again Discuss Peace River Railway

Possible Two Canadian Roads Will Have Another Conference

Ottawa.—There is a possibility of another conference of Canadian railway men being called to discuss a route for the Peace River Railway. On a question from D. M. Kennedy, Progressive, West Edmonton, in the house, Hon. G. P. Graham said that he would prefer not to give an opinion on the "probability" of an agreement being reached between the heads of the two Canadian railways on the subject until he had a report from them.

"If some suggestion does not come shortly," added the minister of railways, "I think I will ask them to join in another conference to discuss the question again."

Will Not Discard Army Death Penalty

Not Punishment But a Deterrent to Others Says War Secretary

London.—The British Labor party fought unsuccessfully in the House of Commons to abolish the death penalty in the British army, an amendment introduced by E. Thurtle, Labor member, Shoreditch, to the annual army bill, being rejected by 320 to 156. Sir Laming Worthington-Evans, war secretary, declared that only 11 per cent. of the death sentences passed during the war were carried out, 89 per cent. being quashed or reduced. The death penalty, he declared, was intended less as punishment than as a deterrent to others.

Predicts Opening Of Navigation April 20

Ice Barrier at Head of Lakes Not Breaking Yet

Port Arthur, Ont.—The 18-mile stretch of solid ice which has locked the harbors of Port Arthur and Fort William against navigation is beginning to show the effects of the spring sunshine, but it will be some time yet before there is any break in the ice barrier.

Captain Cousins, veteran navigator of this part, does not think navigation will be open to the head of the lakes until April 30. Reports here indicate that the ice field extends as far as Isle Royal, though the thick ice does not go far beyond Thunder Cape.

Canadian Bakeries In Merger

Six Leading Companies Taken Over By New York Corporation

New York.—Six leading baking companies of Canada have been acquired by the Continental Baking Corporation of this city, it was announced through George G. Barber, chairman of the board of the local corporation.

The Northern Bakeries, Limited, has been incorporated in Canada, with headquarters in Montreal, and has taken over control of the Canadian companies which operate the bakeries in seven eastern cities.

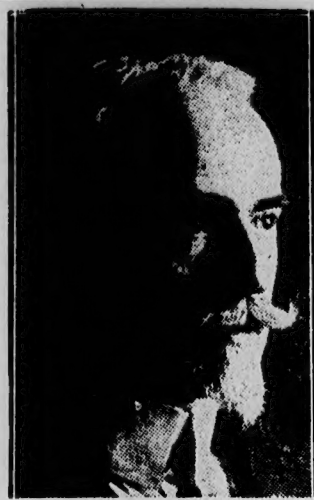

Zionist Ship Arrives

Jerusalem.—The President Arthur, the first ship to fly the Zionist flag, arrived at Haifa, from New York. The 500 American Jews who made the voyage attended the opening of the Hebrew University here, at which Lord Balfour conducted the inaugural services.

Pioneer Doctor Dies

Winnipeg.—Dr. R. I. Mattice, 78, pioneer medical practitioner of Winnipeg, died March 31, following a four-day illness from pneumonia. He had been in general practice in Winnipeg for 52 years.

Causes Unrest In Japan

WICKHAM STEED

former Editor of the London Times, who has created anxiety among Japanese by speech on Yellow Peril.

Geophone Used In English Mine Disaster

Instrument Indicated That None of Men Are Alive

Newcastle, England.—Military engineers brought to Chatham a geophone, an instrument constructed on the principle of the stethoscope, in the hope of being able to ascertain from sounds below if any of the 38 miners who were caught in the Montague Colliery by a rush of water several days ago, were alive. Nothing was heard through the instrument, and this was taken by the people of Seabwood, where the mine is, as confirming their fears that all the men and boys below have perished.

Today was the first time the geophone, which was used during the World War, was applied to a mine disaster.

St. Paul's Cathedral Closed

Work of Repairing Edifice Will Take Six or Seven Years

London.—The people of London have had their last unobstructed view of the interior of St. Paul's Cathedral for probably six or seven years, and on March 31 the last service was held under the famous dome prior to closing the entire eastern part of the edifice for the work of strengthening it.

The whole area under the dome, together with the transept choir and Jesus Chapel, will remain closed to the public until the cathedral has been made safe.

In the future services will be held in the western end of the nave and St. Dunstan's Chapel.

Nova Scotia Financially Sound

Status Is One To Be Proud Of Says Premier

Halifax.—With the exception of Prince Edward Island and New Brunswick, the expenditures of Nova Scotia for the last fiscal year, \$5,577,872, were lower than those of any other province in Canada, Premier E. H. Armstrong declared in the legislature. The financial status of Nova Scotia, compared with other provinces, was one to be proud of and satisfied with, he said.

Is Champion Wheat Grower

Mr. J. Corbett Mitchell and his wife, of Dahinda, Sask., who returned to Canada on the Canadian Pacific liner "Montrose" recently. Mr. Mitchell, who holds the title of "World's Wheat Champion" and won this honor three years in succession, has been delivering a series of lectures throughout Great Britain on the advantages Canada offers for the settler.

Consider Refund Of Grain Futures Tax

Winnipeg.—Refunding of the \$20,000, collected as grain futures tax under the act ruled ultra vires of the province by the privy council and plans for meeting the resultant loss of revenue, are under consideration by the Bracken Government. Money collected under the act will be repaid, although the detailed process of making repayment has not been decided. A large proportion of the amount involved is held by brokers, who were awaiting the result of the prolonged litigation as to the validity of the legislation.

Proposes To Settle Mosul Boundary Dispute

Turkey Offers Inducements to Britain Is Report

London.—The Daily Mail has reason to believe that Turkey has made a proposal for a settlement of her difficulties with Great Britain, mainly with reference to the Mosul boundary, separating Turkey from Mesopotamia. Turkey's suggestion, the Daily Mail says, is that she shall have the town of Mosul and that part of Mosul province immediately to the south. In return, she does not desire territory further south, which is predominately Arab, and she promises to guarantee indefinitely the frontier line to the south of Mosul.

The Mosul boundary dispute had its origin in the establishment of the Kingdom of Iraq, formerly Mesopotamia, sponsored by Great Britain.

The whole dispute revolved around two main points. Turkey wants Mosul for military reasons and Great Britain insists on having control of the territory, as British interests have large oil holdings there.

Charged With Bombing Plot

Infernal Machine Found In Possession Of Toronto Italians

Toronto.—Following the discovery of a powerful dynamite bomb, a sawed-off shotgun, a bandolier filled with shells, several boxes of cartridges and spark plugs, police have taken into custody Rafael Emiglio, in whose house the stuff was found, and Faustino Manfredi.

Charges have been laid in connection with an affair on March 25, when a bomb exploded near the home of A. Bernardo, who previously had received a letter demanding \$1,500. Failure to pay would mean that his house would be blown up, the letter said, Bernardo, it is said, received another letter on March 25, stating "the explosion was a little one, and a big one will follow it if the money is not paid."

Russ-French Parleys

Paris.—Four Soviet experts have arrived in Paris for negotiations of an economic nature with the French Government. Leonid Krassin, the Soviet ambassador, has requested the government to set the time and the place for the first meeting.

Many Idle In Vienna

Vienna.—Unemployment in Austria is greater than at any time since the war. Nearly 200,000 now are out of work.

ANXIETY CAUSED BY ACTIVITIES IN JAP SHIPYARDS

London.—While Franco-German relations fill the public eye in European diplomacy, it is understood that British statesmen are far more concerned over the development in the Pacific than in Europe. The latter, they are confident, can be controlled, but the former is getting beyond control and the British leaders are now visualizing an early struggle for a white Pacific.

The committee of imperial conference have been devoting consideration to Pacific problems and reports from secret agents as well as diplomats give cause for grave anxiety. The reports indicate great secret activity in Japanese shipyards with the building of submarines and cruisers.

It is understood that Austen Chamberlain, the British foreign minister, told Frank B. Kellogg, the new United States secretary of state, before the latter left England, that Great Britain, is now convinced that events are now shaping themselves dangerously in the Pacific, and he urged an early arms conference in the hope of checking the Japanese preparations.

Naval interests are showing the keenest interest in the expressed co-operation of United States and British fleets in the Pacific and it is now an accepted fact that they will work together in the future.

Reject Amendment To Medical Act

Alberta Legislature Opposes Proposal of Mrs. Nellie McClung

Edmonton.—Provision for legalizing Christian Science practitioners in Alberta, introduced into the legislature, met with strong opposition, and as a result, the proposal, which was moved by Mrs. Nellie McClung, Liberal member for Edmonton, as an amendment to the Medical Profession Act, was withdrawn, and another amendment will be introduced on the same question at a latter date.

The amendment reads as follows: "That nothing in this act contained shall apply to, or affect, those who practice the religious tenets of their church without pretending a knowledge of medicine or surgery, and provided that the laws, rules and regulations to contagious diseases and sanitary matters are not violated."

Dominion Pays Large Sum For Subsidies

Foreign Service Received Bulk Of Expenditure For Mail and Steamships

Ottawa.—The Dominion of Canada has expended the sum of \$46,756,599 on mail subsidies and steamship subventions from 1867-68 up to the present time. This information was given in the house in answer to questions by N. H. McTaggart, Progressive, Maple Creek.

In answering the question, Hon. A. B. Copp, secretary of state, informed Mr. McTaggart that of the total amount, \$33,063,712 had been paid to foreign services, and \$6,857,653 to local services.

Record Raid By Mounties

Find Counterfeit Money and Press in Quebec Farm House

Montreal.—One of the biggest raids ever undertaken against counterfeiters in Canada was staged by the Royal Canadian Mounted Police at a farm house some three miles beyond L'Assomption, in Girard Parish, here, when they seized \$150,000 worth of counterfeit \$10 bills, at least 500,000 cut papers of the same size, ready to be printed, a foot and power driven press of the most up-to-date design and other paraphernalia, and arrested seven men.

Moisture Greater This Year

Calgary.—During March 14.5 inches of snow fell in Calgary, making the total for the winter 68 inches, or, in terms of actual moisture precipitation, 6.8 inches. The precipitation last winter, covering the period from October 1 until March 31, amounted to 5.86 inches of moisture, or 58.6 inches of snow.

"IT IS FINISHED"**AN EASTER MESSAGE**

(Published By Request)

"When Jesus therefore had received the vinegar, He said, It is finished." —John 19:30.

In Christ Jesus, our crucified Savior, dearly beloved friends:

In our study of the passion of Christ we have now come to the point where we see Him standing upon the threshold of eternity. Back of Him lies His life and all His sufferings; before Him the open grave. In a few more moments He is to die. With the cry: "Father into Thy hands I commit my spirit," He is to depart from this life. But before He passes away He speaks yet one more word, the word of our text, "It is finished." It is to this word that we shall direct our attention.

"It is finished."

I. That is the glory of Jesus Christ.

II. That is our comfort.

I. What then, was the nature of the work of Jesus Christ here on earth? For what purpose did He appear in our midst? According to the opinion of the unbelieving world, Christ's work consisted in this, that He through the preaching and expounding of the law made moral beings of man and that He through His sinless, God-pleasing conduct

show men what they must do in order to merit eternal salvation.

They present Christ as a man standing upon the shore telling a drowning man what he must do to save his life. But their opinion is false, entirely false, and a base denial of the love of God and Christ. No! not for that purpose did Christ appear that he might tell the drowning sinner how to save himself, but to save him. His work was nothing else but the redemption of a lost world, the salvation of lost sinners. It is just this which Christ repeatedly declared to be His life work. How frequently did He not mention this in His discourses and in His private conversations! Let us hear a few words where He makes mention of His life's task. To His disciples He said: "For the Son of Man is come to save that which is lost," (Matt. 18:11). On another occasion, when John and James, "in undue haste, meant to command fire to come down from heaven and consume the Samaritans who had shown no hospitality unto the Lord, Jesus said: "Ye know not what manner of spirit ye are of, for the Son of Man is not come to destroy men's lives but to save them," (Luke 9:55-56). Not only in the presence of His friends but also in the presence of His enemies did Jesus testify of His life's work. To them He said: "I came not to judge the world, but to save the world," (John 12:47). Concerning the work of Jesus Christ unbelievers may tell us what they please, we will accept only the testimony of Christ Himself, and with the Apostle Paul we will boldly maintain: "This is a faithful saying and worthy of all acceptance, that

Christ Jesus came into the world to save sinners." The salvation of sinners, then, was the one great work of Christ.

To accomplish this work the Lord had many a task to perform. On the one hand He had to fulfill the law which men by their sins had transgressed, and still transgressed daily, on the other He had to suffer the punishment which the world because of its transgressions had merited. To the accomplishment of this task His whole life was devoted. If we but look at His life we shall readily notice it. "Holy, holy, holy is the Lord of hosts; the whole earth is full of His glory" (Isa 6:3) thus the Triune God is exalted. Holy, that is the word which fitly describes Christ. He was holy as an unborn babe, before ever he saw the life of the world. Aply does the angel therefore say to the Virgin Mary: "Therefore also that holy thing which shall be born of thee shall be called the Son of God" (Luke 1:35). He was holy in His childhood and in His youth. Speaking of Christ, against whom the kings of the earth stood up and the rulers of the earth were gathered, Luke, in the 4th chapter of Acts, verse 27, says: "For of a truth against Thy holy child Jesus, whom Thou hast anointed, both Herod and Pontius Pilate, with the Gentiles and the people of Israel, were gathered together." He was holy in life. For that reason He dared defy the world with the question, "Which of you convinceth me of sin?" (John 8:46). He was holy in His suffering and in His death. It was this that prompted Pontius Pilate to exclaim: "I find no fault in Him." And the malefactor on the cross to say: "This man hath done nothing amiss." This holiness which we note throughout the life of Christ was nothing else than the fulfillment of the law which He rendered in the stead and in the place of men, just one part in His work of salvation. If we look at the life of Christ from yet another side we shall note that He in this world experienced much suffering. He had no more than opened His eyes at birth when He was persecuted by the cruel tyranny at Jerusalem by King Herod, and together with His parents driven into Egypt. He had no more than been baptised when He, by Satan, was led into the wilderness, tempted and tried. He had no more than completed His last journey to the city of Jerusalem when His enemies came upon Him, took Him prisoner, judged and condemned Him. If His whole life was a life of suffering it was even more so during the last week that He spent on earth. Then He suffered in body and in soul. Taken prisoner by the Jews and the Roman soldiers He was tortured in the most abusive manner. Then He was delivered unto the Gentiles, scourged and finally crucified. His bodily suffering reached its climax when He on the cross cried out: "I thirst." But the suffering of His soul was even greater than the suffering of His body. In Gethsemane He wrestled with death, not with death as we do, a conquered enemy, but with death unmastered and undefeated. And His sweat was as it were great drops of blood falling to the ground. On the cross he tasted the full wrath of God over the sins of the world, yea the bitterness of hell itself. The suffering of his soul reached its height when He on the cross cried out: "My God, my God why hast thou forsaken me?" This suffering that Christ endured was nothing else than the punishment, which the world with its sins had called upon itself. Distinctly do we read "He was wounded."

Wanted, For Sale Ads.

FOR SALE:—4500 Bushel of Golden Rain seed oats, 1923 crop, weight 46 lbs. per bushel, on the farm, 12-32-28, W. 4, 16 miles north-east of Didsbury, Government test 95 per cent. Price 50c per bushel. O. R. Turnacli, Olds, Alta. 2p14

FOR SALE:—New wagon with double box; Double driving harness, good as new. Apply J. H. Hehn, Didsbury. 2p14

MACHINERY:—Stafford is here with another carload of farm machinery, discs, drills, plows and 2 Fordson tractors. This machinery can all be seen at D. Sinclair's blacksmith shop.—Ed. Stafford. 2p14

FOR SALE:—One new Capital cream separator, MacCartney milking machine and a large strainer and 20 milk cans. Apply Mrs. A. Simons, Phone 2009. 3c14

FOR SALE:—Seed potatoes: Early Ohio and Early White Boyce. Apply A. A. Perrin. 2p13

\$25 REWARD:—For information concerning the theft of three bundles of baling wire from near Kendrick's well on Saturday evening. Notify W. M. McCulloch. 2p13

FOR SALE:—Milk cows for sale, Shorthorns and Holsteins. Apply J. W. McLeod, Didsbury. 2p12

FOR RENT:—Qtr. Sec. of land, known as the Harry Steiss farm, for \$80 and road work. 25 acres broken, good spring. Phone 90. 3c12

FOR SALE:—Golden rain oats, 93 and 95 per cent. government germination test. Phone 716, Didsbury, or write Mr. C. L. Long, Olds. 2p11

FOR SALE:—1923 Gold Rain Oats, government test 95 per cent. in six days. 75c a bus. S. C. Riddle, Carstairs. 3p11

WANTED:—At once, live man to act as Life Insurance Agent in Didsbury and district. Liberal commission contract given. Write P. A. Beveridge, M. A. 405, P. Burns Bldg., Calgary.

FOR SALE:—Registered Polled Angus bull 4 years. Apply W. A. Swingle. 4c10

Advertise IN THE Pioneer IT PAYS!

There was a general increase in all phases of the lumbering industry in Canada during 1922, as compared with the previous year, according to the latest report of the Dominion Bureau of Statistics. The average value of the output in that year amounted to \$139,894,677, as compared with \$114,324,580 in 1922, an increase of 22.4 per cent. In this respect the lumbering industry comes third on the list of manufacturing industries in Canada, with the pulp and paper industry first and the flour and grist mills second.

Passengers aboard the Canadian Pacific steamship "Empress of France," now touring the world, had a unique experience recently while visiting Ceylon. Returning from a run out to Kandy, the old capital of the Cingalese Kings and Site of the Temple of the Tooth of Buddha, a train-load of the travellers was held up by a herd of wild elephants which, hemmed in on either side by the jungle, ambulated along the track ahead. This was a feature of the journey which delighted those of the tourists who were not anxious about missing the ship.

Viola Dana, the famous motion picture actress, whose work has delighted millions, is to be the star of a drama to be filmed at Banff, according to a recent report. Miss Dana journeyed from New York to Montreal and then across the continent via Canadian Pacific Railway, in order to join her company for the film. The remainder of the cast are proceeding to Banff from Los Angeles and it is expected that shooting of the scenes will commence shortly. A very considerable number of big pictures have already been taken at Banff, which seems to have a great attraction for discerning stars and directors who appreciate the beauty of the scenery.

Carrying the Canadian Flag Round the World

The "Empress of Scotland," now on a tour of the world, and her smaller sister, the "Montreal," now on a cruise of the Mediterranean, lying in the Bay of Phaleron, named from the little summer resort about four miles from Athens. Canadian and United States passengers are seen landing from the "Empress of Scotland" with a view to taking the automobile trip into Athens.

C.P.R. Annual Report, Guide to Canadian Development

Is clearly understandable presentation of conditions since it affects all phases Canada's industrial and commercial life

E. W. Beatty,
Chairman and
President

Every year the people of Canada have placed before them two documents which in a different way present the facts regarding conditions prevailing throughout the country. One of these is the budget of the Minister of Finance and the other is the annual report of the Canadian Pacific Railway. The latter being a business document and necessarily entirely free from any touch of political influence is the more clearly understandable presentation of conditions and it is an equally reliable guide because there exists no phase of Canada's industrial and commercial life which is not touched upon and affected by the truly national institution of which it is an annual record.

The company's report for the year just issued, reflects the marked contraction the nation's business has experienced. Gross earnings for the year totalled \$182,502,156, a decline of \$13,334,933 from those of the previous year. Freight earnings alone decreased by \$10,794,410. Working expenses, including all taxes totalled \$145,274,914, a decrease of \$13,083,165. Net earnings totalled \$37,227,241, a decrease for the year of \$251,768. The working expenses for the year, including all taxes, amount to 79.60 per cent. of the gross earnings, and the net earnings to 20.40 per cent., as compared with 80.86 per cent. and 19.14 per cent. respectively in 1923.

In his summary to the annual report Chairman and President E. W. Beatty points out that the decrease in freight earnings, which alone amounted to \$10,794,410, is largely accounted for by the much smaller movement of grain and flour, particularly the former, owing to the smaller crop in Western Canada. He instances also a substantial decrease in the movement of manufactured articles as a result of the general business situation. Notwithstanding this, he says, the result of the company's operations must be considered satisfactory.

Mr. Beatty pointed out that the company's land sales for the year totalled 96,755 acres, of which 6,741

acres were of irrigated land selling at \$53.26 per acre, the average for the balance being \$15.90 per acre. The land sales were in excess of last year, but were still of moderate proportions, due partly to the fact that immigration was not extensive, especially of those financially able to immediately purchase land holdings.

The wide-spread character of the company's operations, said the report, makes it necessary that substantial cash balances should be maintained and for that purpose the directors had authorized and maintained the creation and sale of securities totalling \$52,000,000.

Special attention was drawn to decreases in the company's income from subsidiary companies, particularly the Canadian Pacific steamships operating on the Atlantic where continued light freight business and smaller passenger traffic cut into earnings. Results in this connection were disappointing, says the report. In anticipation of a considerable increase in passenger and freight traffic the schedules for the season were arranged to provide for ten additional sailings during the St. Lawrence season. The schedules of sailings of other companies were also enlarged with the result that competition was increased, and this and the drastic immigration laws of the United States, together with the failure of Canadian immigration to reach the proportions expected by the Government and the transportation companies, were the principal causes of the unsatisfactory showing. The steamship companies, in order to assist in making effective the immigration policy of the country, allowed a rebate of fifteen dollars in the fare of each immigrant, but, notwithstanding this concession, the decrease in third-class westbound passengers was 15,000 and the cost to the Company of the rebates is \$325,000, with a corresponding reduction in its net earnings. The total earnings westbound were \$1,743,000 less than in 1923. The eastbound passenger carryings were somewhat greater than in 1923, owing largely to the attraction of the Wembley Exhibition. Freight traffic showed a very moderate increase, amounting in earnings to \$503,000 and in tonnage to 125,000 tons. In the result, the operations of the Atlantic fleet showed a decrease in revenue from all sources of \$1,979,000 under 1923 and an increase of \$617,000 in expenses owing to the increased number of voyages. An improvement in business to and from the Orient is expected because of the more stable commercial and political con-

ditions now existing in these countries.

The report drew attention to the two fine new steamers, the "Princess Kathleen" and the "Princess Marguerite" which have been built for the British Columbia Coast steamship service, both of which will be operating in a few weeks and to the satisfactory progress on the work of building the new Lake Louise Chalet which will open in June as one of America's finest hotels.

During the year the company proposes to spend a total of \$4,858,900 on improvement to plant connected with railroad and telegraph services. It was pointed out that during 1924 branch line construction in the Western provinces was proceeded with 227 miles of railway being graded and 214 miles of track being laid. Moderate extensions will be built during the coming year, a total of 176 miles of branch lines being proposed.

The report concludes with an important observation on the freight rate situation in which it is pointed out that the recent decision of the courts naturally creates violent inequalities and discriminations between communities. Undoubtedly intervention by Parliament will be necessary in order that a scale of rates may be evolved which will be free from such discrimination, even though legal in character. The remedies which are suggested are for the most part artificial and of doubtful soundness. A general lower scale of rates is not possible without grave unfairness to the transportation companies unless brought about through increase of traffic in consequence of greater population and development in the country itself. Two factors, however, appear to be reasonably certain, namely, that an independent tribunal free from political influence should determine the reasonableness of Canadian railway rates and that the Companies should receive adequate revenues for the vitally important services they render. The complicated question of freight schedules is one which can only be dealt with by a dispassionate tribunal with the aid of experts and having in view the interests of the shippers and consumers, and of the transportation agencies of the country. In public discussions of the subject the value of the work of the transportation companies and in particular of your Company is frankly recognized, but the fact that that work can only be carried on successfully under a fair scale of rates is sometimes overlooked.

"IT IS FINISHED"

Continued from page 4

ed for our transgressions, he was bruised for our iniquities (Isaiah 53:5). Even as His holiness so also was His suffering a part of the work which He came to perform.

This great work of Jesus Christ was not a work planned by human mind and placed on Him by human hands. No. He who planned this work and imposed it upon our Lord was none other than God Himself. In the fourth chapter Galatians we are told: "But when the fulness of time was come, God sent forth His Son." The latter part of the verse tells us furthermore that it was God that had placed Christ under the Law: "Made of a woman, made under the law, to redeem them that were under the law." And it was God who made Jesus suffer, suffering is a consequence of sin. And in Isaiah 53 we are told: "The Lord hath laid on Him the iniquity of us all." And again, "It pleased the Lord to bruise Him," (Verse 10). Throughout His entire life Christ looked upon His work as being a work of God, and called it thus. And always did He feel Himself responsible over and against God. As a twelve-year old lad He told His parents, who had come to seek Him in the temple: "Know ye not that I must be about My Father's business?" At another time He declared—this was later in life—"I seek not mine own will, but the will of the Father which hath sent me" (John 5:30). Even in Gethsemane He acknowledged the will of God: "Not my will but thine be done," so He prayed.

Here on the cross, He now faces His Father in heaven and pointing to His life's work He declares: "It is finished." "It is finished." Thou hast sent me to fulfil the law—it is finished. Thou hast sent me to bear the penalty of Man's sins—it is finished. The work of salvation which thou hast given me to do—it is finished. Yea that work of salvation is finished, that is the glory of Christ the Son of God.

(To be continued next week.)

The largest batch of Clydesdale horses that has ever sailed from the Clyde, valued at \$10,000, was embarked recently on the "Marloch." It consisted of 14 stallions and 3 fillies, and there were also ten Percherons from Antwerp on the "Marburn," while ten more Percherons and Belgians will be shipped at a later date. The horses were purchased by Mr. W. J. McCallum, of Brampton, Ontario, and Brandon, Manitoba.

George E. Buchanan, of Detroit, believes in romance. He believes in it so much that last year he took 48 Detroit boys for a trip to Alaska. This year he is going to take a good many more and he will include Canadian youngsters. He has been visiting in Toronto and his object is to find some boys willing to take a holiday in the Far North next July. Mr. Buchanan, who was born near Chatham in Ontario, has developed this unique hobby owing to having himself been taken on a trip to Alaska forty years ago when he was a boy.

D.D.D.

This greatest of skin remedies will remove those skin afflictions that have made your life a burden. That intolerable itching, burning and discomfort will disappear under the magic of this remedy. It has healed many cases pronounced hopeless and will reach your case. The first \$1.00 bottle relieves you of your misery back. Try D. D. D. soap, too.

H.W. CHAMBERS

Here and There

Under the joint Canadian-British Government scheme, 3,000 families are being brought to Alberta this year and the first party of families will arrive in April. They will first be guaranteed employment and later will take up their own land.

Henry E. Suckling, Treasurer of the Canadian Pacific Railway since 1908, died recently at Atlantic City after an illness of several months. He was born at Gibraltar in 1851 and had been associated with railways in a treasury capacity since his early manhood.

J. C. Mitchell, of Dahinda, Sask., known as the "world's champion wheat grower" returned home recently from a lecture tour of the British Isles. "Go West, young man, go West," is his advice to all who wish to try their fortunes in the Dominion.

Speaking at Toronto, Hon. Charles McCrea, Minister of Mines for Ontario, said that the estimated output of the mines of the province this year will be around \$75,000,000. In regard to gold he stated that by 1928 Ontario was expected to top the total production of the United States.

A new Silver Trophy donated by the English Football Association to the Dominion of Canada Football Association for annual competition among Canadian clubs has arrived in Canada and will be on exhibition at Canadian Pacific stations at Montreal, Toronto, Winnipeg and right across the West.

An expedition which will try to climb Mount Logan (19,359 feet) in the Yukon, the loftiest peak in Canada, is to leave Vancouver in April. It will be headed by A. H. McCarthy and Col. W. E. Foster, of Vancouver, and six other gentlemen, including a representative of the English Alpine Club, will complete the party.

Agricultural products in the Province of Manitoba during the year 1924 reached a total estimated value of \$164,312,857, according to figures issued by the Provincial Department of Agriculture. This amount is nearly double that of the previous year and is accounted for largely by the big upturn in the price of wheat.

The shield which was taken from the gates of Old Quebec when the city was captured by General Wolfe, and now in the possession of the town of Hastings, will be returned to the Ancient Capital. The Hastings Council have decided to return the shield which was presented to them by General Wolfe Murray, a descendant of the famous soldier.

Miss Ethel Loginska, temperamental pianist, gave another taste of her quality when she lectured a socially prominent audience for coughing in the middle of a concert at Englewood, N.J. "If you can't control yourselves, please don't stay here," she remarked. About fifteen disgruntled members of the audience left the hall indignantly.

Trail Riders of the Canadian Rockies have developed the idea of using snow shoes for horses over the heavy snow tracks of that region. In this way great quantities of supplies are brought considerable distances across trails that would otherwise be impassable to heavy loads. Trail Orders are holding their second great Pow-Wow early in August next.

Devising a new kind of motion picture camera with a built-in motor that is almost noiseless in operation, Burton S. Moore, proprietor of the Nictau Camps in New Brunswick, has succeeded in taking about 4,000 feet of film of wild life in action which will be shown in due course on Canadian and United States screens. He has been particularly successful in depicting every motion in that special phenomenon by partridges known as drumming.

Over half of last year's western grain crop was handled by the Canadian Pacific Railway according to data just issued by the Dominion Bureau of Statistics. Of the total grain inspections numbering 173,856 cars during the seven months, to February 28 last, 99,237 cars were on the company's lines, representing 57 1/2 per cent. while of the 130,157 cars delivered at Fort William and Port Arthur during the same period 68,690 or 52.8 per cent are credited to the company.

"I'm looking for someone to lend me \$10."
"Well, it's a nice day for it."

"The time will come," shouted the lecturer, "when women will get men's wages."

"Yes," shouted a little man in the back seat, "next Saturday night."

The one thing that a man cannot keep to himself is happiness.

"CAPTAIN BLOOD," a Vitaphone picture with J. Warren Kerrigan in the title role, is an adaptation of this thrilling novel.

SYNOPSIS

Captain Peter Blood is the terror of the Spaniards who sail the Spanish Main. He loves Arabella Bishop, niece of the governor of Barbadoes, who is aboard the Royal Mary which bears Lord Julian Wade to the West Indies to make peace with piracy. Lord Wade tells Arabella of Blood's reputation and that he is about to wed Madelon d'Ogeron, daughter of the Dutch governor of Tortuga. The Spanish ship, Milagrosa, sinks the Royal Mary and Arabella and Wade are taken prisoners.

CHAPTER XVII.—Continued

Miss Bishop, newly risen, had come out to take the air on the quarterdeck, with his lordship in attendance, when she beheld the big red ship that had once been the Cinco Lagas out of Cadiz. The sight thrilled her curiously; it awoke in her an uplifting sense of pride that took no account of danger to herself in the encounter that must now be inevitable.

Beside her on the poop stood Lord Julian. But he shared none of her exultation. He had been in his first sea fight yesterday, and he felt that the experience would suffice him for a very considerable time.

"Look," said Miss Bishop, pointing. Did she realize, he wondered, what was afoot. Her next sentence resolved his doubt. "She is English, and she comes resolutely on. She means to fight."

"God help her, then," said his lordship gloomily. "Her captain must be mad. If they could so easily blow the Royal Mary out of the water, what will they do to this vessel? Look at that devil Don Miguel. He's utterly disgusting in his glee."

Of necessity now, under diminished sail, the advance of the Arabella was slower; but it was none the less steady. She was already within shaker shot, and they could make out the figures stirring on her fore-castle and the brass guns gleaming on her prow. The gunners of the Milagrosa raised their linestocks and blew upon their smoldering matches, looking up impatiently at the admiral. But the admiral solemnly shook his head.

BETTER IN EVERY WAY

After Taking Lydia E. Pinkham's Vegetable Compound

Ingomar, N. S.—"I took your medicine for a run-down condition and inward troubles. I had pains in my right side so bad at times that I could not walk any distance. I saw about Lydia E. Pinkham's Vegetable Compound in the newspapers and have taken five bottles of it. I am better in every way and you can use my letter to help other women."—Mrs. ALVITA M. PERRY, Ingomar, N. S.

Nervous Breakdown Relieved

Toronto, Ontario.—"It is pretty hard to explain your feelings in nervous troubles. I felt low spirited, had pains in my head and eyes, always crying, and did not want to go anywhere. I do knitting and fancy work, and I would get irritable after a few minutes of work. I have been in Canada five years and have been this way ever since I came. I am taking Lydia E. Pinkham's Vegetable Compound and I sleep better and it seems to make me eat, and I must say I am feeling more jolly. I have great faith in your medicine because of what it has done for my husband's sister and she recommended it to me."—Mrs. A. SMITH, 10 Burleigh Avenue, Todmorden, Toronto, Ontario.

All druggists sell this dependable medicine, and women suffering from these troubles so common to their sex should give it a trial now.

W. N. U. 157

Attempt Ascent of Mount Logan

Canadian Expedition to Climb Loftiest Peak in Canadian Territory

A Canadian expedition which will attempt the ascent of Mount Logan (19,350 feet) in the Yukon, and the loftiest peak in Canadian territory, is to leave Vancouver soon. It will be headed by A. H. McCarthy and Col. W. W. Foster, of Vancouver, and six other gentlemen, including a representative of the English Alpine Club, will complete the party.

Hello Daddy—don't forget my Wrigleys!

Slip a package in your pocket when you go home to-night.

Give the youngsters this wholesome, long-lasting, sweet-tasting pleasure and benefit.

Use it yourself after smoking or when work drags. It's a great little freshener.

Instead of holding to her course as Don Miguel had fully expected she would, the Arabella had gone about under cover of the smoke, and sailing now in the same direction as the Milagrosa, was converging sharply under her across the wind, so sharply that almost before the frenzied Don Miguel had realized the situation, his vessel staggered under the rending impact with which the other came hurtling alongside. There was a rattle and clank of metal as a dozen grape-shells fell, and tore and caught in the timbers of the Milagrosa, and the Spaniard was firmly gripped in the tentacles of the English ship.

Beyond her and now well astern the veil of smoke was rent at last and the Hildaiga was revealed in desperate case. She was blighting fast. The attention of her hands was being entirely given to a desperate endeavor to launch the boats in time.

"I do not number thieves and pirates among my acquaintances"

Of this Don Miguel's anguished eyes had no more than a fleeting but comprehensive glimpse before his own decks were invaded by a wild, yelling swarm of boarders from the grappling ship. For a moment there was a valiant effort by some of Don Miguel's officers to rally the men for a stand against these invaders. But the Spaniards' hastily formed ranks were smashed before they could be steadied; driven across the waist to the break of the poop on the one side, and up to the fore-castle bulkheads on the other, the fighting resolved itself into a series of skirmishes between groups.

Soon, however, the rage of that brief fight was spent. The banner of Castile came fluttering down from the masthead. A buccanier had slashed the halyard with his cutlass. The boarders were in possession. Suddenly Miss Bishop recovered from her nausea, to lean forward staring wild-

eyed, whilst, if possible, her cheeks turned yet a deadlier hue than they had been already.

Picking his way daintily through that shambles in the waist came a tall man with a deeply tanned face that was shaded by a Spanish head-piece. Up the broad companion to the quarter-deck he came, moving with easy assurance, until he stood before the Spanish Admiral. A crisp, metallic voice, speaking perfect Spanish, reached those two spectators on the poop and increased the admiring wonder in which Lord Julian had observed the man's approach.

"We meet again at last, Don Miguel," it said. "I hope you are satisfied. Although the meeting may not be exactly as you pictured it, at least it has been very ardently sought and desired by you."

(To be continued)

Still Another Advantage For Smokers

The Vacuum (Air-Tight) Tin—Suitors of My Lady Nicotine Will Benefit By Recent Innovation

Nothing can ever replace the pleasure—the solace—the comfort and enjoyment afforded by Tobacco. But the charm of the leaf is largely the charm of its full rich flavor, and until recently, the perfection of this feature was often marred by the heat of stores and warehouses, especially during Winter, and the dryness of the atmosphere during Summer, which dried Tobacco out, and destroyed its original freshness and fragrance.

The chance of this taking place is now entirely eliminated by the famous vacuum (air-tight) tin. Whether a man smokes cut tobacco, or prefers to cut it himself as he requires it, or whether he chews tobacco, he can now be assured of securing his favorite brands in the same perfect condition as they left the factory. The richness of flavor, the delicate fragrance, the moisture, are all retained by this wonderful innovation, the famous vacuum (air-tight) tin, which is sure to bring increased enjoyment to all who smoke and all who chew.

The story of how the famous Sir Walter Raleigh first introduced Tobacco to civilization is common knowledge. But the leaf which he and his contemporaries indulged in was crude smoking to the brands enjoyed by smokers to-day. The history of the development of tobacco is a record of a long series of innovations, modifications and devices, all planned to make its use more enjoyable to the consumer. But probably none of these has been so great an improvement from the devotee's point of view, as the famous Vacuum (air-tight) tin, in which the Imperial Tobacco Company of Canada Limited is now packing several of their leading brands of cut smoking, plug smoking, and plug chewing tobaccos.

370,000 Tons of Grain

The Soviet Government has ordered 370,000 tons of grain and 242,000 tons of flour from abroad. There is an acute shortage in several provinces.

A HAPPY CHILDHOOD IS A MATTER OF HEALTH

Little children quickly get out of sorts, but by prompt treatment they can just as quickly be set right again. Most of their troubles arise in the first place from the stomach and bowels; that is why a good clearing out is the first thing the doctor prescribes. Mothers, why not let Baby's Own Tablets keep your children well. Unlike that ill-smelling, rank tasting castor oil so dreaded by most children, the Tablets are pleasant to take and their action, though thorough, is gentle and causes no discomfort to either the baby or the growing child. Baby's Own Tablets are a never failing remedy for relieving constipation and indigestion; thus they break up colds and simple fevers, expel worms and make the teething period painless. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

WORLD HAPPENINGS BRIEFLY TOLD

Between May, 1922, and January 31, 1923, ships of the Canadian Government Merchant Marine carried 9,948 head of cattle from Canada to United Kingdom ports.

Lieut. Governor W. C. Nichol, of British Columbia, who returned recently to Canada after a journey through France, reported that Anglo-French relations were never better.

The Federal Government has collected \$907,926 in all for royalties on coal mines in Alberta during the last five years. There is an amount of \$34,829 outstanding.

First Lieut. Clifford Elleman, of Russellville, Ind. was killed and Sergt. Edwin Meserick severely injured when their aeroplane fell 150 feet at Honolulu.

Hon. G. P. Graham, minister of railways and canals, received many congratulations and bouquets of flowers March 31, in remembrance of his sixty-sixth birthday.

"The Dominion Patriot," a four-page bi-weekly newspaper, has made its appearance in Toronto, featuring news matter of interest to the Ku Klux Klan of Canada.

The first Soviet trawler to visit England arrived at Grimsby with a catch of fish from the White Sea that was immediately condemned as unfit for food. Hitherto the Soviet Government has exported nothing to England but bad eggs.

According to a dispatch from London, Fridtjof Hansen has consented to head a scientific expedition to the North polar regions on a Zeppelin of 150,000 cubic feet capacity, commanded by Captain Bruus, German Zeppelin commander, for the purpose of exploring and mapping the Arctic.

The Turkish Government has addressed a note to the powers, asserting that it cannot agree to the continuance of foreign embassies in Constantinople. It demands the transfer of the embassies to Angora, in Asiatic Turkey, the present seat of the government.

In Girlhood and Womanhood

—Levy's Studio

"My first experience with Dr. Pierce's Favorite Prescription was about the time I was growing into womanhood," said Mrs. Hilda Hodgins of 504 Aylmer Ave., Windsor, Ont., whose picture appears above. "I had become run-down, my nerves were bad and I got very weak and trembled. My mother gave me Dr. Pierce's Favorite Prescription and it completely built me up in health, strengthened my nerves and made me feel well and strong. Since I married, whenever I have felt myself going down in health, or my nerves beginning to bother me, I have taken the 'Favorite Prescription' and every time it has done for me just what I expected it would do—built me up in health and strength, quieted my nerves and made me feel fine. There isn't any medicine a woman can take for her ills that can compare with 'Favorite Prescription'."

Send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., for a trial pkg. Favorite Prescription tablets.

Alberta Registered Seed

52,000 Bushels of Registered Seed Grain Handled This Season
The Alberta Government seed cleaning and grading plant operated by the provincial department of agriculture and the Alberta Seed Growers' Association, has handled to date for the present season a total of over 52,000 bushels of registered seed grain. Shipments have been made to farmers in the province of Saskatchewan, Manitoba and some on the Northwestern States.

Agony Of Lumbago Quickly Soothed Away By "Nerviline"

For the sharp, piercing pain of Lumbago, and the tormenting aches of Rheumatism, no liniment is so efficient, so quick to bring comfort and relief as good old "Nerviline." This wonderful liniment penetrates through the tissues very quickly, sinks at once to the core of the pain, draws the blood from the congested area, and thereby relieves the pain in a short time. Those who suffer from stiff joints, swellings and Rheumatic conditions should use Nerviline, the King of Pain destroyers. Get Nerviline today, 35c, at all dealers.

Dog Has Clock In Collar

Women have put clocks and watches on wrists, ankles and garters, but Mrs. Arthur Ferrimal, of San Diego, California, went even further when she put a large clock on her dog and installed a small carriage clock in the collar. Mrs. Ferrimal's time-keeping retriever is an object of amazement to pop-eyed Britishers when she and the pup take their stroll on the Strand.

HER NERVES SO BAD SHE COULD NOT SLEEP

Mrs. Grace Kitchen, St. George, Ont., writes: "After having a severe attack of pneumonia I was left in a weak and run-down condition. My nerves were so bad I could not sleep nights, and in the day time I had terrible fainting spells, caused by my heart being weak. Finally I got so bad I had to take to my bed for weeks at a time, but one day I read about

MILBURN'S HEART AND NERVE PILLS

so decided to try them.

After taking one box I felt a slight improvement. I have now taken five boxes, and have gained 25 pounds in weight. I am now more than able to do all my own housework as well as considerable outside work. I cannot recommend Milburn's H. & N. Pills too highly for those suffering as I did."

Peace of Pacific Essential

Premier Bruce, of Australia, believes that in the peace of the Pacific there lies the best guarantee of the future of the world, and that by friendship between Australia and the United States much can be done for the peace of the Pacific.

Makes Breathing Easy. The constriction of the air passages and the struggle for breath, too familiar evidence of asthmatic trouble, cannot daunt Dr. J. D. Kellogg's Asthma Remedy. This is the famous remedy which is known far and wide for its complete effectiveness even under very severe conditions. It is an untried, experimental preparation, but one with many years of strong service behind it. Buy it from your nearest dealer.

Nothing To It

Mrs. Suburb.—Your husband always dresses so quietly.
Mrs. Next-Door.—Oh, does he? You ought to hear him when he loses his collar stud!

Externally or Internally, it is Good. When applied externally by brisk rubbing, Dr. Thomas Electric Oil opens the pores and penetrates the tissue, touching the seat of the trouble and immediately affording relief. Administered internally, it will still the irritation in the throat which induces coughing and will relieve affections of the bronchial tubes and respiratory organs. Try it and be convinced.

The word "ultimatum" has caused some wars; the word "foreigners" causes most of them.

Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.

For one murder in London there are four in New York, and no fewer than eight in Chicago.

Value of Farm Lands
According to a bulletin issued by the Dominion bureau of statistics, the average value of occupied farm lands in Alberta is placed at \$25 an acre, compared with \$24 for 1923. The highest average is British Columbia with \$96 an acre. Alberta has the lowest average price per acre of occupied farm lands in all the provinces of Canada, save Saskatchewan, where the average value is estimated at \$24 an acre. Manitoba's average is \$28 an acre.

SPRING IMPURITIES DUE TO POOR BLOOD

A Tonic Medicine a Necessity at This Season

Dr. Williams' Pink Pills are an all-year-round tonic for the blood and nerves. But they are especially valuable in the spring when the system is loaded with impurities as a result of the indoor life of the winter months. There is no other season when the blood is so much in need of purifying and enriching, and every dose of these pills helps to enrich the blood. In the spring one feels weak and tired. —Dr. Williams' Pink Pills give strength. In the spring the appetite is often poor. —Dr. Williams' Pink Pills develop the appetite, tone the stomach and aid weak digestion. It is in the spring that poisons in the blood find an outlet in disfiguring pimples, eruptions and boils. —Dr. Williams' Pink Pills clear the skin because they go to the root of the trouble in the blood. In the spring anaemia, rheumatism, indigestion, neuralgia and many other troubles are most persistent because of poor, weak blood, and it is at this time when all nature takes on new life that the blood most seriously needs attention. Some people dose themselves with purgatives, but these only further weaken themselves. A purgative merely gallops through the system, emptying the bowels, but does not help the blood. On the other hand, Dr. Williams' Pink Pills enrich the blood which reaches every organ in the body, bringing new strength and vigor to weak, easily tired men, women and children. Try Dr. Williams' Pink Pills this spring—they will not disappoint you.

Among those who have proved the value of Dr. Williams' Pink Pills is Mr. Austin Wile, Hemford, N.S., who says: "I have reason to be deeply grateful for what Dr. Williams' Pink Pills have done for me. An abscess developed in my head, and the doctor who was called in said my whole system was poisoned. My appetite completely failed and I grew so weak I was unable to do any work. The doctor's medicine did not help me so I decided to try Dr. Williams' Pink Pills. At this stage I was reduced almost to a skeleton, and my friends did not look for my recovery. I soon found, however, that the pills were helping me and after taking them for about two months I was fully restored to health. My case was known to all my neighbors and my recovery looked upon as almost a miracle." You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The wag of a yellow dog's tail is better than the shake of a false friend's hand.

CUTICURA HEALS SKIN TROUBLE

Eruptions On Shoulders, Neck and Face. Itched and Burned.

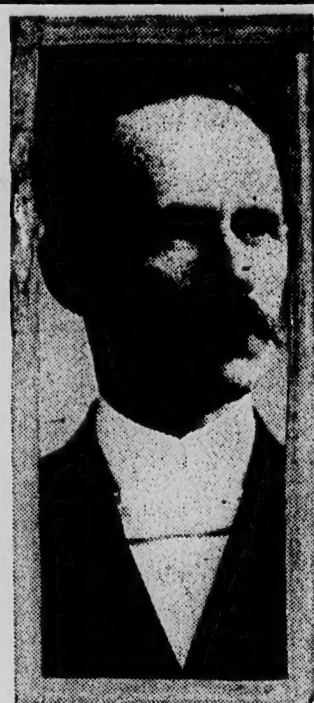

"My trouble began with red spots breaking out on my shoulders, neck and face. They itched and burned causing me to scratch and irritate the affected parts. The eruptions scaled over and my clothing aggravated them. My face was disfigured, and the trouble kept getting worse."

"I began using Cuticura Soap and Ointment, and after using three cakes of Cuticura Soap and one and a half boxes of Cuticura Ointment I was completely healed." (Signed) Miss Pauline Mills, R. F. D. 4, Quaker City, Ohio, June 15, 1923.

Cuticura Soap, Ointment and Talcum are all you need for every-day toilet and nursery purposes.

Sample Book Free by Mail. Address: Canadian Agents: "The Cuticura Co., 100 St. James St., Montreal. Price: Soap 25c, Ointment 25c and Talcum 25c. Try our new Shaving Stick."

Was Prominent Social Worker

DR. J. G. SHEARER

General Secretary of the Social Service Council, who died very suddenly in Toronto.

Death Of Dr. Shearer

Was General Secretary of Social Service Council of Canada

Toronto.—Rev. Dr. J. G. Shearer, general secretary of the Social Service Council of Canada, died suddenly here March 27.

Rev. Dr. Shearer was born at Bright, Ontario, in 1859. He was a graduate of the University of Toronto and was one of the founders of the Lord's Day Alliance of Canada. Since 1907 he had been general secretary of the Social Service Council of Canada and had done effective work with this organization. He was well known throughout Canada and enjoyed wide respect.

SUNDAY SCHOOL LESSON

APRIL 12

THE CRIPPLE AT THE BEAUTIFUL GATE

Golden Text: I am Jehovah that health thee. Exodus 15:26.

Lesson: Acts 3.

Devotional Reading: Isaiah 25:1-10.

The Text Explained and Illumined

The Request of the Cripple, verses 1-4. In the days which we are studying there were no clocks like ours to measure time. Whether the Jews used sundials, or water clocks, or some other contrivance, we do not know. They divided the day between sunrise and sunset into twelve equal parts, and of course the length of each part, or hour, varied, being longer in summer than in winter.

Nine in the morning and three in the afternoon were the two hours fixed by law for sacrifice and prayers, Ex. 29:41. It was three o'clock in the afternoon, the ninth hour, as Peter and John were about to enter the temple enclosure for prayer, that they came upon a cripple sitting on the steps begging. Visitors to Palestine will have no difficulty in visualizing this scene. The lame and the blind, the poor and the diseased, are sitting around every church door soliciting alms. The blind are led and the lame are sometimes literally carried on the shoulders of obliging friends to their accustomed place, whether the beggars are impostors or not, few pass them by without giving them a copper piece of the value of half a cent. On Friday afternoons the steps leading down to the Jews' Walling Place at Jerusalem are so occupied by beggars of all sorts and descriptions that one makes his way through them with difficulty.

This beggar whom Peter saw was about forty years old (Acts 4:22), and had been a cripple from birth. He was carried daily to the Beautiful Gate to beg, that gate of the temple through which no cripple nor deformed person might pass into the temple area.

A Household Medicine.—They that are acquainted with the sterling properties of Dr. Thomas' Electric Oil in the treatment of many ailments would not be without it in the house. It is truly a household medicine and as it is effective in dealing with many ordinary complaints it is an inexpensive medicine. So, keep it at hand, as the call for it may come most unexpectedly.

Dodd's Kidney Pills Cleared Up Joseph Lessard's Kidney Trouble

Quebec Man Tells How and Why He Is Now Enjoying All His Old-time Health and Vigor.

St. Leon, Que.—(Special).—"It gives me pleasure to tell you how satisfactory your Dodd's Kidney Pills have been to me." Mr. Lessard states in an interview. "I have had boils for the past eight months and have spent over \$60 for treatments, which did not relieve me of them. After taking five boxes of Dodd's Kidney Pills my boils have disappeared. I also had violent pains in my kidneys and they have also gone with the boils. I am now feeling fine and am quite well. I would like to recommend Dodd's Kidney Pills to all persons who suffer with similar complaints to my own."

Dodd's Kidney Pills stimulate and strengthen weak kidneys. You will be surprised how quickly they begin to cleanse and purify, to soothe and heal the kidneys, at the same time backaches, rheumatism and other disorders caused by impure blood, disappear.

AROUND THE TOWN

Mr. Percy Seal is a visitor in town this week.

Mr. Bert Fisher is confined to his home through illness.

Postmaster King of Carstairs was in town on Wednesday visiting with Postmaster Morgan.

Postmaster Morgan talks with a cute little lip these days and according to reports is strong on the soup diet.

Geese and ducks in large numbers are reported as making their spring migration to the north country.

Don't forget that Friday is Good Friday, a legal holiday, and that all business places in town will be closed, the post office only being open for a short time after the arrival of trains.

The Horse Show and Bull Show is the big attraction at Calgary this week which has taken a lot of our farmers to cow town for a few days holiday.

Rev. Chas. T. Hornuth is in Calgary this week attending the monthly executive Board meeting of the Canadian Bible Society of which he has recently been appointed a member.

Mrs. Otto Lemke and daughter who has been visiting with her parents Mr. and Mrs. O. W. Stauffer for the past few weeks, is returning to her home near Acadia Valley, Alta., this Thursday.

Mrs. Dr. J. L. Clarke who has been in the Edmonton hospital for some weeks undergoing a serious operation is expected home next week. She is still in very poor health but it is hoped that she will completely recover soon.

The "Calgary Kiddies" will again appear at the Didsbury Opera House on Thursday, April 16th, before they leave next month to fill their third year contract with the Chautauqua, touring B. C., Alberta, Saskatchewan and Manitoba. Don't fail to see this clever company of laugh makers.

Mr. L. Elliott, local supervisor of the Soldier Settlement Board, expects to be moved to the Calgary office in the near future. A change is being made in the location of supervising offices, several points being eliminated, the work being conducted from the Calgary office. Mr. Elliott has made a lot of friends in the district who will be sorry to see him leave us.

Rev. Silas J. Fox, returned missionary from India will be in Didsbury next Sunday, April 12th, and give two addresses in the M. C. church on the following subjects—3 p. m., on "Why I am a Foreign Missionary" and at 7.30 p. m. on "The signs of the Times." These addresses will be of special interest to all who are able to attend. All are invited.

Golfitis, the malady that is closely related to curlitis, is becoming very virulent in town, several of our leading citizens being afflicted. They are looking for a cure, or at least an alleviation of their sufferings, by tramping the surrounding landscape for suitable greens. We hope that they will soon be successful and that they find some outlet for their malady.

"Smilin' Through" which Jane Cowl made famous in London and New York and Norma Talmadge in pictures, will be a special Easter week attraction at the Didsbury Opera House on Saturday, April 18th. This is a delightful romantic comedy woven around a fair young Irish girl and her lover who is a soldier in the great war. The play is under the direction of Messrs. Davis and Dalke who will bring the same excellent company that played at the Empire theatre in Edmonton.

DON'T MISS THE FAMOUS CALGARY KIDDIES

JUVENILE PROFESSIONALS FROM THE McDONALD ACADEMY OF FINE ARTS

Who will Appear Here

THURSDAY, APRIL 16th, AT 8.15 P. M.

These kiddies have played to capacity houses wherever they have appeared and have sent their audiences home more than satisfied with their evenings entertainment.
